ABOUT ASMET INDUSTRIES

Established in 1981, ASMET Industries Pvt Ltd, formerly known as AS-MET Industries, is a manufacturing facility specializing in heavy fabricated assemblies and components.

The company was conceptualized by Mrs. Anitha K. Shetty and Mr. S. N. Shetty, with a strong focus on quality and dependable manufacturing.

Over the years, ASMET has developed expertise in manufacturing a variety of fabricated components including Mufflers, Base Frames, Skids, Supports and allied fabricated parts.

Our products serve diverse industries across India and international markets.

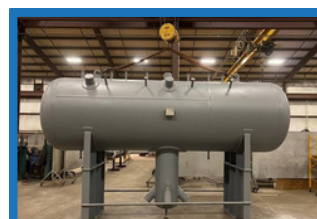

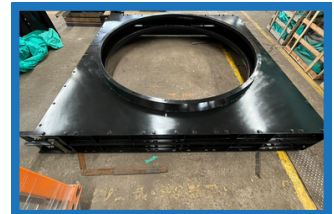

OUR PRODUCTS

What We Manufacture

Our manufacturing capabilities include:

- Mufflers
- Base Frames
- Skids
- Supports
- Heavy Fabricated Assemblies
- Allied Fabricated Components
- SS Fabrication
- Pressure Vessels
- Custom made products

Built for Industrial Applications
We manufacture fabricated components designed to meet the requirements of diverse industrial applications and customer specifications.

INDUSTRIES WE SERVE

Serving Diverse Industries

Our fabricated products cater to a wide range of industrial sectors:

Process Industries

Machine Tools

Mining Industries

Power Generation

Chemical Industries

Petrochemical Industries

India & Global Markets

Our products cater to industries situated both in India and abroad.

MANUFACTURING FACILITY

Our Manufacturing Facility

Located in Peenya Industrial Area, Bangalore, our manufacturing facility is designed to support efficient production, material handling and fabrication activities.

Facility Highlights

- 15,000 Sq. Ft. covered manufacturing area
- 3 spacious manufacturing bays
- Sufficient lighting and ventilation
- 5,000 Sq. Ft. additional open area
- Dedicated space for raw material storage and handling
- Necessary machinery and material-handling equipment
- Supporting manufacturing infrastructure

INFRASTRUCTURE & CAPABILITIES

Infrastructure Built for Heavy Fabrication

Our facility is equipped with modern machinery and infrastructure to handle a variety of fabrication requirements.

Key Capability

Up to 20 Tons Handling Capacity

Our infrastructure enables us to undertake diverse jobs across different industries while maintaining focus on manufacturing efficiency and quality.

Our Infrastructure Includes

- Material handling equipment
- Modern manufacturing machinery
- Spacious fabrication bays
- Raw material handling area
- Supporting production infrastructure

OUR TEAM & CUSTOMERS

Our Team

Our team is one of our greatest strengths. Since 1981, our expertise and infrastructure have supported customers across diverse industries with a focus on quality products and timely delivery.
